Learning Academy

Welcome to the IEP Leadership & People Management Learning Program

The **IEP Leadership and People Management** Program is a practical, hands-on program designed to support people stepping into leadership, preparing for their first leadership role, or looking to build confidence in leading others.

Across three interactive live online sessions, participants will explore what it means to move from practitioner to leader, how to bring out the best in others, and how to approach communication, coaching, feedback and performance with greater confidence.

With practical tools, real-world scenarios and shared learning, participants will leave with approaches they can put into practice straight away.

At a glance:

- 3 live online workshops
- 1.5 hours per session | 4.5 hours total
- Practical, hands-on learning
- Real-world leadership scenarios
- Discussion, coaching practice and reflection
- Designed for new and emerging leaders
- Tools that can be applied immediately
- IEP Certificate on completion

Leadership & People Management Topics

Stepping into Leadership

Explore the transition from practitioner to leader and what changes when you become responsible for supporting and developing others. Build greater self-awareness, explore different leadership approaches and start developing your own confidence as a leader.

Leading and Developing People

Explore how effective leaders bring out the best in others. Develop practical communication, motivation and coaching skills to build trust, support development and create engaged and accountable teams.

Managing Performance and Driving Results

Build confidence in setting expectations, providing meaningful feedback and approaching performance conversations constructively. Explore practical ways to create accountability, encourage growth and support continuous improvement.

Pricing
